ALVAH H. PLACE,

Secretary of Sewer Committee

ANNUAL REPORT

OF THE

Chief and Clerk of Fire Department.

NEWMARKET, N. H., Feb. 15, 1913.

TO THE TOWN OF NEWMARKET:

In compliance with the law, requiring the Chief Engineer of the Fire Department to make an annual report to the town, the following report is respectfully submitted.

FORCE OF THE DEPARTMENT.

The regular force of the department consists of a chief and two assistant chief engineers, two hose companies of 16 men each, one hook and ladder company of 12 men, and a driver for hose wagon No. 3. Each company is allowed to have five substitute members, who, when acting as such, are paid for their services by their principals when acting as substitutes, making a total force of 49 officers and men available for fire duty, all of whom are subject to monthly out-door drill except in winter. The companies are well officered, are under good discipline, and the service done by them at fires during the past year would be creditable to any fire department.

FIRE APPARATUS.

One hose wagon, capacity 1000 feet hose; three play pipes; two axes; two three-gallon chemical extinguishers; wagon is arranged to lay one or two lines of hose at once, as may be desired; one double runner hose pung of same capacity as hose wagon; two Gleason & Bailey hose carts, chain winding reels, each with a capacity of 700 feet of hose; 2500 feet 2½ inch rubber-lined hose; 1000 feet 2-inch rubber-lined hose; nine flexible play pipes; four solid play pipes; six Callahan shut-off nozzles; two single hydrant gates; two two-to-one Siamese connections; one one-to-two Siamese connection; 32 spanners; seven hydrant wrenches; ten lanterns; four torches; two crowbars; 12 shovels; five hoes; four fire axes; eight coats; 18 fire hats.

The Gleason & Bailey steel frame truck, No. 2, carries one 45-foot East Somerville extension ladder; one 26-foot, one 25-foot, one 24-foot and one 18-foot single ladders on truck; also one pull-down hook and chain and rope; four hand hooks and poles; two crotch poles; two fire axes; two crowbars; two pick-head sledges; 12 rubber buckets; four firemen's lanterns; four pairs of boots; one signal lamp; one 13-inch gong.

FIRE ALARM.

One 12-inch steam chime whistle; one 2000 lb. bell and striker; two 18-inch gongs; two 6-inch gongs; twelve fire alarm boxes; seven miles of wire, and the proper amount of battery to sustain the same.

The line was inspected in the fall and put in as good condition as possible for the winter. The fact that the system of alarm has always been found in working order when needed is a great source of satisfaction to the Board of Engineers, the superintendent of battery, the firemen, and citizens in general.

GENERAL REMARKS.

We have had above the average number of fires the past year, 12 alarms, although only two were of any great consequence, with a total loss of $9,235.00, of which only $6,010.00 was covered by insurance.

The Board of Engineers have furnished everything necessary to keep the department up to date. We have purchased 300 feet of two and one-half inch hose, to replace that which is getting leaky. A new box, to take the place of box 45, which was damaged by lightning a few years ago and has not been reliable since, has been installed. We have put up one mile of new wire, new cross-arms, etc., and done other necessary repairs. I recommend that incoming boards put in a small quantity of new wire each year, as the old iron wire is getting rusty and offers some resistance to the current on the long ends and is liable to make the boxes work badly. I should recommend using copper wire.

I am still in favor of having one or more pieces of automobile apparatus. A good combination hose and chemical: one that would hold about 600 feet of hose, one or two 30-gallon chemical tanks, with axes, bars, lanterns, etc., and room for several men on the running boards. Of course to buy one of these all equipped would cost probably $4,000.00 or more. We could not afford it at present. We could buy a second-hand machine, one that had met with an accident or been in a fire, and repair it and build a body suitable to take the equipment off from Hose 3, and buy what we need new. I think we could get up a machine that would give us good service. This has been done in Somerville at a cost of only $575.00, and also in Haverhill, and they are both giving good service for small fires and fires outside the hydrant limit. Such a piece of apparatus would be invaluable. I think with a slight advance over our regular appropriation, this might be accomplished. I probably shall

not ask for it this year, as the town has been under considerable expense for the sewers, etc.

To my associates on the Board of Engineers and to the officers and members of the fire companies, I hereby express my high appreciation of the promptness in responding to alarms and the cheerful manner in which you attended to your duties at fires.

LEWIS HERSOM,
Chief Engineer.

FIRE LOSSES AND INSURANCE.

Total number of fire alarms the past year, twelve. Total amount of damage, $9,235.00. Amount of insurance paid, $6,010.00.

FIRE RECORD.

Statement of details of fires and alarms, losses and insurance, as reported to the Clerk of the Board of Engineers by property owners and insurance agents.

May 1, 1912. Engineers' call at 11.55 A. M., for a brush fire in the Channell pasture on the Bay Side road. All-out sounded at 1.15 P. M. No damage.

June 2. Alarm from box 12 at 3.30 P. M., for a fire in a shed on Spring street, owned by George O. Hodgdon. All-out sounded at 3.45 P. M. Damage, $25; no insurance.

June 22. Engineers' call at 3.30 P. M., for a brush fire at Durham Point. All-out sounded at 4.30 P. M. No damage.

July 5. False alarm from box 32 at 4.30 P. M.

Aug. 12. Alarm from box 12 at 10.30 P. M., for a fire at the residence of E. S. Carpenter. All-out sounded at 12.30 A. M. Damage, $5,190; insurance paid, $5,190.

Sept. 6. Alarm from box 82 at 5.50 P. M., for a small fire in one of the rooms of the Newmarket Manufacturing Co. All-out sounded at 6.10 P. M.

Oct. 9. Alarm from box 12 at 4 P. M., for a small fire in some leaves on High School hill. All-out sounded at 4.15 P. M. No damage.

Oct. 30. Alarm from box 63 at 5 P. M., for a fire in a shed owned by William Simpson. All-out sounded at 5.30 P. M. Damage, $20; insurance paid, $20.

Nov. 6. Alarm from box 21 at 9.30 P. M., for a small bonfire on Main street. All-out sounded at 9.40 P. M. No damage.

Dec. 2. Alarm from box 21 at 8.15 A. M., for a chimney fire in the saloon occupied by William Ritchie. All-out sounded at 8.40 A. M. No damage.

Dec. 28. Alarm from box 12 at 12.30 A. M., for a fire at the Albert Stevens farm at the Bayside. All-out sounded at 3 A. M. Damage, $4,000; insurance paid, $1,800.

Feb. 8. Alarm from box 21 at 4.55 P. M., for a chimney fire in a house back of Dearborn's drug store on Chapel street, owned by F. H. Durgin. All-out sounded at 5.10 P. M. No damage.

FIRE ALARM TELEGRAPH AND FIRE DEPARTMENT SIGNALS.

LOCATION OF BOXES.

No. 5. Chapel street.
No. 7. Granite Hose, Station 2, N. F. D.
No. 12. Tiger Hose, Station 1, N. F. D.
No. 21. Town Hall.
No. 32. Corner Exeter and Mt. Pleasant streets.
No. 34. Exeter street, near residence of F. H. Durgin.
No. 41. Pumping station, Newmarket water works.
No. 45. Corner Main street and Treadwell avenue.
No. 49. Main street, near residence of R. E. Graves.
No. 63. North Square, North Side.
No. 65. Main street, North Side, near residence of Walter I. Ham.
No. 82. Newmarket Manufacturing Co.

DIRECTIONS FOR RINGING IN AN ALARM.

When a fire breaks out the person discovering it should immediately run to the box *nearest the fire*, break the glass in the front of the small key box which is on the side of the fire alarm box, take out the key, which is attached to a chain, unlock the fire alarm box, open the door and pull down the hook *as far as it will go*, then let go the hook. Stand by box to direct the firemen. Don't pull in an alarm for a fire seen at a distance or out of reach of the hydrant system, but notify some member of the department, who will give the proper alarm.

FIRE DEPARTMENT SIGNALS.

Second alarm, 8 blows, for reserve apparatus and call firemen.

2 blows after fire alarm indicates fire all out.

2-2-2. Brush fire. Report to the Fire Warden at Station 1.

3-3. Hose 3 call. For chimney fires, etc.

4-4-4. Call to Newmarket Manufacturing Co.'s hose company for assistance.

U. S. Observatory standard time, by Western Union Telegraph, one blow at 12.30 P. M., daily.

Hook and Ladder Co. and Hose 3 will answer all box calls.

Hose 1 will answer boxes 5, 7, 12, 21, 32, 34, 41, 45, 49 and 82, with apparatus.

Hose 2 will answer boxes 5, 7, 12, 21, 63, 65 and 82, with apparatus.

SCHOOL DEPARTMENT.

REPORT OF SCHOOL BOARD.

On August 1, 1912, Mr. John H. Swain resigned as Superintendent, and the Board joined with Somersworth and thereby secured the services of Mr. Frank S. Sutcliffe, a man who is fully qualified in every way, and has given us full satisfaction. The commercial department was added this year, and is meeting with success, under the charge of Mr. Harry W. Woodman.

In accordance with the law, approved March 10, 1909, requiring the School Board to submit estimates relative to statutory requirements, to be raised by the Selectmen in their annual assessments of taxes, the Board submits the following:

For text books and scholars' supplies, $500.00.

The annexed report of the Superintendent of Schools gives the statistical information required by law.

MICHAEL B. GRIFFIN,
ERNEST P. PINKHAM,
FRANK H. DURGIN,
School Board of Newmarket.

REPORT OF SUPERINTENDENT.

To the Honorable School Board of Newmarket, N. H.,

Gentlemen: I enclose herewith the several statistical tables covering the period between September, 1911, and June, 1912, as required by law. In addition, the report of the high school principal, which covers the work in which we have jointly been interested in establishing and have worked harmoniously together to maintain. The only means by which I have any opportunity of comparing the interest in the school is by means of statistics. The following table deals only with the time since September, 1912:

Whole number of different pupils registered,			41.
Boys,	18.	Girls,	23.
Average daily attendance,			36.13.
Average daily absence,			1.85.
Per cent.,			95.13.

While the number of different pupils registered is the same as last year, the percentage of attendance is considerably higher. A continued effort on the part of the pupils for the remainder of the year will be necessary to retain that standard.

We have come to measure, within the past few years, education by a new standard, a standard of individual achievement. This means that we have begun to differentiate the abilities of children, and to estimate the success of school work, not in terms of a general standard, but in terms of what each individual is able to do within the range of his own ability. It is evident that so long as individual teaching prevailed, the

evils attendant upon a rigid classification could not occur. On the other hand, the spur that comes from mental contact was unknown. Where large numbers were to receive their preliminary instruction at small cost, the emphasis was placed on class teaching and class organizations. The importance of the individual is now being brought to the front and the principle is rather firmly established that the school should be organized to meet the varying needs of the individuals who comprise it. In other words, the children are divided according to their power really to grasp a new point. Thus the teacher may have as many groups as she chooses. The pupils may not be grouped in all subjects, nor is the membership of the groups constant. Pupils may be promoted from group to group any time. There may be two groups in reading for example, and there may be three in arithmetic or language; consequently the membership of the group is constantly shifting.

By this means no child is slighted or neglected. The bright child does thorough work, and is kept up to the mark by reviews and drills. He learns how to study, and has time to form habits of study. Children in the slower group are given more time for instruction, and thus brought up to grade, although they have not covered as much ground in all subjects.

Every child receives personal attention and instruction from the teacher, and since certain branches may be taught to the class as a whole, the advantages arising from having the class recite together may be retained.

Such is the method we are trying to follow. To be a success requires that the seat work be carefully planned for, and that the teaching of different parts of the same general subject by different teachers follow consecutively.

Respectfully submitted,

F. S. SUTCLIFFE,

Superintendent of Schools.

REPORT OF HIGH SCHOOL PRINCIPAL.

SUPT. F. S. SUTCLIFFE,

Dear Sir: I herewith submit a report of the Newmarket High School for the current school year.

The commercial course which was introduced last September has, under the efficient direction of Mr. Harry W. Woodman, proved very popular and successful. Twenty pupils have availed themselves of the opportunity of studying commercial branches. The course extends over a period of four years and is not confined to purely technical matters but includes subjects calculated to add to the pupil's general knowledge and culture. A four years' course is undoubtedly superior to a shorter one, because a pupil will then be older and more mature when he enters the business world. The pupils have taken hold of the work with interest and enthusiasm and not a single poor record has appeared. Many of them are voluntarily doing extra work. I am confident that after the course has been in operation two or three years, our graduates will be able to fill intelligently business positions. This course should be attractive for post-graduate work, especially to those who have not had commercial instruction. We have one post-graduate student now. Another typewriter is needed to allow more individual practice.

As there is a continued demand for a college preparatory course, such a course has been retained and strengthened by the addition of a third year of French. Pupils can enter college directly from our high school without incurring the delay and expense of attendance at some other preparatory school. Nearly every year some Newmarket pupil has entered college, but usually after attending some other school. Hence the other school receives the credit. So the New-

market high school is not on the list of schools approved by the New England College Entrance Certificate Board, but it can gain a place on that list just as soon as some pupil will enter a college represented on that board directly from our school and make a good record. This board is an association of fourteen New England colleges established for the purpose of authorizing New England schools, if found satisfactory, to send their graduates to college on certificate rather than by examination. Steps have been taken to secure the approval of the board, and it is hoped the effort will soon be successful. Our school is approved as an institution of the first class by the New Hampshire State Superintendent of Public Instruction.

The programme of studies has been so arranged that each teacher has one free period four days a week to devote to individual work with pupils who need it. This has proved very beneficial and has greatly reduced the number of delinquents, and so has increased the efficiency of the school work.

Special lessons in spelling have been given regularly in addition to the other studies. The result is gratifying. At the end of the first two weeks only 25 per cent. were perfect in spelling tests, while 11 per cent. were unsatisfactory; in a recent average 71 per cent. were perfect, while none were unsatisfactory. Misspelling in general work has decreased markedly. All are not yet perfect spellers and never may be, but such improvement is encouraging.

The pupils have organized a students' association, the purpose of which is to encourage a good school spirit and manage all student activities outside of mere class affairs. From the dues athletic supplies have been purchased and books procured for the school library. Other plans to benefit the school are being considered.

Very respectfully,

ALFRED W. SMITH,

Principal.

PUBLIC LIBRARY.

REPORT OF TRUSTEES.

Since the reopening of the library, Feb. 17, 1912, after being closed for more than five months, during which time the building was thoroughly repaired and the interior painted and decorated, the books cleaned, rearranged, classified and catalogued under the Dewey card system, a system that may go on indefinitely, whereas the printed catalogue was old as soon as a new lot of books was purchased, the library has greatly increased in usefulness.

We have now some seven hundred borrowers—persons holding cards, and owing to this increased patronage the library is opened on Mondays, thus giving three days in a week. From 100 to 200 books are issued each day. A borrower may take one book of fiction and one of non-fiction on a card. Teachers and pupils wishing books of reference may have more. The age limit has been changed from 12 to 7. The new heating plant is greatly appreciated and the reading room a favorite resort We have now a good list of magazines, which after one month on the tables may be put in circulation.

There are many things needed. Steel stacks with adjustable shelves, that we may bring books from the high shelves within the reach of the people. Newspapers and suitable racks for them, and valuable sets of books that we cannot now afford.

The work of the Assistant Librarian in classifying 5100 books and writing 15,000 cards for the catalogue has been largely a labor of love. Other libraries have called in experts to do this work at heavy expense. Mrs. Mathes had the courage to undertake this extra work and completed the card catalogue a few months ago. The system is not yet perfected, but it is the ambition of the Board of Trustees to bring this library into line with other up-to-date libraries of its size.

MRS. A. C. HAINES,
President Board of Trustees.

REPORT OF TREASURERS.

J. H. SWAIN, *Treasurer, in account with Public Library.*
